Professor Saeed Rastgoo
Assistant Professor of Physics
Department of Physics and Astronomy
York University, Canada.

Dear Professor Saeed Rastgoo,

I am currently a fourth year Physics student in York University, I am writing to express my interest in being under your care as my supervisor for a research course in the Winter term of 2022.

For the past 3 years, I have several academic achievements under my belt. I was personally invited to the Golden Key International Honour Society where membership is available to the top 15% of student in each faculty at York University. I was awarded the York University International Award of Merit and the York University Continuing Student Scholarship. In addition to that, I have also received two different bursaries this year; York University Undergrad Bursary and the International Student Bursary. I also had a tutoring background in physics, mathematics and statistics.

I am well-organized, detail oriented, and able to prioritize effectively to manage my studies with a strong time management and high degree of commitment to my work. I hope you would be able to consider my application and guide me through this year.

Sincerely,

Rosalyn Chan
